

Message from North Muskegon Public Schools

Good morning Norse Nation:

It is very likely that you woke up this morning to the news that Governor Whitmer has declared a State of Emergency in Michigan with 2 confirmed cases of COVID-19. Please be assured that we continue to have constant communication with our Health Department who have a direct line to the Michigan Department of Health and the CDC.

We will continue to make decisions based upon facts and recommendations from our local, State, and National health experts. Attached, please find a few of the resources shared with us. Please be sure to continue to reach out with questions as we navigate this unprecedented time. As always, we will attempt to use facts as we make decisions on our students, staff, and community's safety/health/wellbeing.

Thank you!
